Areas of Interest: DSA , Front-End Development, Machine Learning

EXPERIENCE

- Tublian** 11 March 25 - 08 April 25
Frontend Developer
 - Collaborated with the design team to implement responsive and visually appealing user interfaces for web applications, ensuring a seamless user experience across various devices.
- 20+ Projects** August 2023 - Present
Projects in Web-D / Machine Learning
 - Developed and delivered over 20 projects, showcasing expertise in front-end development and UI/UX design. Demonstrated proficiency in modern web technologies, consistently delivering high-quality, responsive, and user-friendly applications.

PROJECTS

- LiveDocs : Real-Time Collaborative Text Editor**
GitHub
 - Developed a real-time collaborative text editor enabling multi-user document editing with account creation and email-based invitations, similar to Google Docs.
 - Tools & technologies used: TypeScript | Next Js | React Js | Tailwind CSS | Liveblocks | Lexical Editor | ShadCN UI | Sentry
- Portfolio : My Personalized Portfolio**
GitHub
 - Crafted a dynamic portfolio showcasing 20+ innovative projects, highlighting a strong foundation in front-end development, creative problem-solving, and user-centric design.
 - Tools & technologies used: JavaScript | React Js | CSS
- CarHub : Book, Sell, or Rent a Car**
GitHub
 - Developed a comprehensive website for searching, booking, and renting cars, featuring intuitive user interfaces, real-time availability, and secure payment processing.
 - Tools & technologies used: TypeScript | Next Js | React Js | Tailwind CSS | "Car-By-API-Ninjas" From Rapid API
- Weather-App : Real-Time Weather Application**
GitHub
 - Engineered and launched a real-time weather application, leveraging APIs to deliver accurate, up-to-the-minute weather data with a responsive and intuitive user interface.
 - Tools & technologies used: JavaScript | React Js | Tailwind CSS
- Amazon-Clone : Clone E-Commerce Platform**
GitHub
 - Designed and developed a fully functional e-commerce platform inspired by Amazon, incorporating advanced features such as product search, user authentication, and secure payment integration.
 - Tools & technologies used: JavaScript | React Js | Tailwind CSS
